INDEPENDENCE DAY 15-AUG-2022

Theme - "Nation First, Always First"

Azadi Ka Amrit Mahotsav – Great Celebration for the Amirtham of Independence

- A. Azadi Ka – Independence
- B. Amrit – Amirtham
- C. Mahotsav – Big celebration @ Great festival

- + India will complete the 75 years of Independence on 15 th August 2022 but India will celebrate the 76th Independence Day.
- + 75th Year of Independence Day of India began on Friday 12 March 2021 and
 - o ends on Tuesday, 15 August 2023
- + Indian people celebrated their first Independence Day on 15 th August 1947, so if we count from 1947 then this will be the 76th Independence Day celebration in 2022. So, they decided to do various programs and the government named the celebration as 'Azadi Ka Amrit Mahotsav'.
- + The official website for Azadi ka Amrit Mahotsav was launched by the Ministry of Culture in March.
- + The celebrations for the 75th Independence Day kicked off on March 12, 2021 in a 75-week countdown and will end after a year on August 15, 2022.

Independence Day was celebrated at V.K.V. Govt. Degree College under the Chairmanship of Principal, Dr.K.P.Raju Sir on 15th Aug, 2022. As part of the program, the students performed several Games. During this program, competitions were held for students on Games & Sports. Prizes were awarded to the students who won these competitions. Our Hon'ble Vice-Principal Sir, Sri.S.Arun Kumar Sir looking the Poster and themes of them.

WORLD OZONE DAY -16/09/2022

AWARNESS PROGRAMME

WORLD OZONE DAY 2022: September 16th is observed as World OZONE DAY every year. This year theme was "Global Cooperation protecting life on te earth". To create awareness on OZONE HOLE and its implications, made an awareness programme among the students by conducting poster presentation competition and distributed CASH PRIZE AWARD to the winners. Ozone is a gas which is made up of three oxygen atoms (O_3). It occurs naturally in small (trace) amounts in the upper atmosphere (the stratosphere). Ozone protects life on Earth from the Sun's ultraviolet (UV) radiation. In the lower atmosphere (the troposphere) near the Earth's surface, ozone is created by chemical reactions between air pollutants from vehicle exhaust, gasoline vapors, and other emissions. At ground level, high concentrations of ozone are toxic to people and plants.

Ozone in the stratosphere absorbs most of the ultraviolet radiation from the Sun. Without ozone, the Sun's intense UV radiation would sterilize the Earth's surface. Ozone screens all of the most energetic, UV-c, radiation, and most of the UV-b radiation. Ozone only screens about half of the UV-a radiation. Excessive UV-b and UV-a radiation can cause sunburn and can lead to skin cancer and eye damage.

The event was held at the seminar hall and was presided by the College Vice Principal, Librarian & NSS Coordinator Sri Arun Kumar, Department of Chemistry HOD Dr. G.Srinivasulu, P. Sai Krishna, Lecturer in Chemistry, T.Ramadevi, Lecturer in Economics, Dr.Simhadri and other faculty and students were participated. On this occasion, the Principal, Vice-Principal, NSS Coordinator Sri. Arun Kumar and other staff and students delivered their speeches on the occasion of National Pollution Control Day. The programme ended with the singing of the national anthem.

In view of the WORLD OZONE DAY, to create awareness among the student community, Dept of Chemistry conducted poster presentation and noticed that there is huge response from the students. Cash awards presented to the 1st, 2nd, 3rd and consolation prizes to the best poster presentation by judgment team (7 lecturers) who are finalized those positions.

Participation List:

S.No	Name of the Student	Year & Group
1	B. Naresh	1 st B.Sc MPCs
2	J. Bhanu Chandra	1 st B.Sc MPCs
3	G. Prasanthi	3 rd B.Sc CBZ
4	P.V.V.L.Prasanna	1 st B.Sc MPC
5	S.Subba Lakshmi	3 rd B.Sc MPC
