Total 80 numbers of students attended for this programme. And all the other faculty members also shared their views.

Deworming Day by Botany & Zoology on 14-03-2023

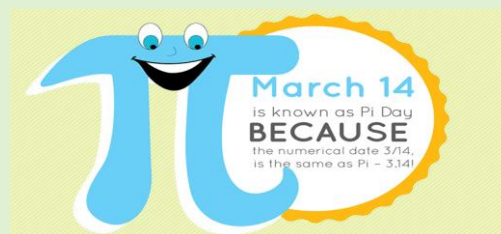

National Deworming Day is observed on March 14, to make people aware of the importance of deworming, particularly for children from 1 to 19 years of age, who are the most vulnerable. Because worms are so common in puppies, vets recommend de-worming them for the first time when they're 2 to 3 weeks old. Worms can pass from mother to baby before birth or soon after, through their milk. It will take more than one dose. The first round kills the worms that are there at the time. Deworming improves your child's immunity, and thereby protecting him/her from chronic illnesses caused by worms. It improves concentration and attendance, making them more productive in school. It increases nutritional uptake and controls infections such as anemia, loose bowels, etc.

The Departments of Botany and Zoology conducted a National Deworming Day awareness programme and distribution of albendazole 400mg tablets to college students on 14-03-2023 in VKV Govt Degree College, Kothapeta. It was under the chairmanship of Principal Dr. K. P. Raju. N. Nageswara Rao, S. Aruna Kumar, G. Srinivasa Rao, Dr. Ch. D. Papa Rao, Dr. K. Satyanarayana, Smt. T. Rama Devi, and B. Vijay Kumar, Lecturer in Zoology, who were aware of the students about Deworming Day. P. Prasanna Jyothi, Ch. Jayasi, K. Jhansi Rani, and Health department members, other staff members and students participated in this programme successfully.
