

Report on Offline Quiz Competition

On the Eve of Charles Babbage's Birthday

Date: 18 December 2025

The **Department of Computer Science** successfully organized an **Offline Quiz Competition** on the eve of **Charles Babbage's Birthday** on **18 December 2025**. The program was conducted with the objective of honouring Charles Babbage, the *Father of Computers*, and to enhance students' knowledge and interest in computer science and related fields.

The quiz competition witnessed **active participation from undergraduate students**, with a total of **six teams** participating. The teams were formed by students from **B.Sc. Computer Science** and **B.Com Computer Applications** streams. Each team consisted of enthusiastic participants who demonstrated keen interest and competitive spirit.

The quiz covered various topics such as:

- History of Computers
- Contributions of Charles Babbage
- Fundamentals of Computer Science
- Logical Reasoning and General IT Awareness

The competition was conducted in multiple rounds, including **objective questions, rapid-fire rounds, and problem-solving rounds**, which tested the participants' knowledge, presence of mind, and teamwork. Students actively engaged in the event, making it lively and informative.

The event concluded successfully with the announcement of winners and appreciation of all participating teams. The faculty members encouraged the students and highlighted the importance of such academic competitions in developing analytical thinking, confidence, and subject knowledge.

Overall, the offline quiz competition was a **great success** and served as an effective platform to promote awareness about the legacy of Charles Babbage while fostering a spirit of learning and healthy competition among students.
