

VKV GOVT.DEGREE COLLEGE

DEPARTMENT OF COMPUTER SCIENCE

Report on Open Day Programme

Dt:13-Feb-2026

The Open Day Programme was organized at **VKV Government Degree College, Kothapeta** to provide an opportunity for Intermediate students to become familiar with the college campus and its academic environment. The programme aimed to help students gain awareness about the facilities, courses, and learning opportunities available at the institution.

During the programme, the visiting students were warmly welcomed by the faculty members and staff. They were taken on a guided tour of the college campus, which included visits to the classrooms, laboratories, library, computer laboratory, and other important infrastructure facilities. The tour helped the students understand the academic atmosphere and the resources available for their learning and development.

Faculty members explained the various undergraduate courses offered by the college and highlighted the importance of higher education in shaping their future careers. They also introduced the students to the learning resources available in the college, including the well-equipped library and computer facilities.

In addition, the students were informed about the different student support services provided by the institution, such as mentoring, career guidance, skill development programs, and extracurricular activities. The interaction between faculty and students created a friendly and informative environment, allowing the visiting students to clarify their doubts and gain confidence about pursuing higher education.

The Open Day Programme was successful in creating awareness among Intermediate students about the academic opportunities and facilities available at **VKV Government Degree College, Kothapeta**, and it motivated them to consider the college for their future studies.
