DEPARTMENT OF ENGLISH

PROFILE

And this our life, exempt from public haunt, finds
tongues in trees, books in the running brooks, sermons in
stones, and good in everything.

- William Shakespeare, *As You Like It*

“Knowledge of languages is the doorway to wisdom.”- Roger Bacon

Language has immense power, and its impact depends entirely on how we wield it. Because words are so often used automatically and unconsciously, we have learned to treat them lightly. Language helps us express our feelings and thoughts — this is unique to our species because it is a way to express unique ideas and customs within different cultures and societies. By learning a foreign language, you can understand ideas and thoughts that may be different from your own culture.

Although English is not the most spoken language in the world, it is the official language in 53 countries and is spoken as a first language by around 400 million people worldwide. But that's not all, it is also the most common second language in the world. According to the British Council, by 2020 about two billion people in the world will be studying English. Learning English is not only useful, but it also gives a lot of satisfaction and making progress will make you feel great.
