\*\*\*\*\*

The rise of Artificial Intelligence (AI) is rapidly transforming various sectors, and education is no exception. From personalized learning to interactive assessments, AI offers exciting possibilities to enhance teaching and learning experiences. AI can automate grading tasks, freeing up valuable teacher time. AI systems can analyze student work, identify areas of difficulty, and provide customized feedback reports, allow teachers to focus on more impactful interventions.

In this connection, to familiarize the AI Tools and their usage in education and with reference to the subject cited above, CCE desires to conduct an Online Workshop on "AI Tools for Teaching, Learning and Evaluation" for Government Degree Colleges in our State.
